training +

Premium SharePoint and Nintex Training Courses On Demand

Training+ is a collection of premium Combined Knowledge training courses delivered in 1080p High Definition video format on demand to everyone in your organisation.

Users progress through each module, building on knowledge gained at each step, with real-world examples and comprehensive demonstrations all delivered with the friendly and down-to-earth style of an expert classroom Trainer.

Each module is divided into convenient, short chunks allowing users to learn at their own pace and stop/start as the obligations of day to day job roles allow.

KEY BENEFITS:

- Users progress at their own pace
- Each module is divided in to convenient, short chunks to introduce each concept in a manageable way
- Fits around day-to-day responsibilities
- Full 1080p HD quality video available in compact or full screen modes
- Course content is augmented with on screen animation and demonstrations for effective communication.
